Full Stack Developer with professional experience delivering scalable web applications using Python (Django), Node.js, React, and VueJS. Proven track record in production systems and freelance projects, managing end-to-end development from planning to deployment. Skilled in API integration, performance optimization, bugfixing, and building efficient, impactful digital products.

Experience

HQZen   Cebu, PH (Hybrid)
Full Stack Developer   Aug 2024 – Aug 2025

- Implemented new features and functionality in web applications using Django and VueJS, improving user engagement and system scalability.
- Optimized backend performance by refactoring database queries and API endpoints, and resolved a wide range of issues from minor UI bugs to major backend defects, ensuring application stability and timely delivery of sprint goals within Agile sprints.
- Collaborated in cross-functional teams with designers and QA engineers, contributing to code reviews, maintaining high code quality, and supporting seamless project delivery.

HQZen   Cebu, PH (On-site)
Full Stack Developer Intern   June 2024 – Aug 2024

- Gained hands-on experience with full stack development, learning core concepts of the codebase and assisting in implementing new features and resolving bugs across the application.
- Applied Agile methodologies by participating in sprint planning, daily stand-ups, and code reviews, understanding the workflow of professional software teams.
- Collaborated with mentors and peers to implement best practices in coding standards, testing, and deployment workflows, contributing to overall project quality and delivery.

Freelance Web Developer   2023 – 2025 (Remote)

- Delivered diverse web development projects for clients using the MERN stack (MongoDB, Express.js, React, Node.js), adapting to different requirements and industries.
- Managed full project lifecycle from planning and requirement analysis to implementation, testing, and deployment, ensuring timely and high-quality delivery.
- Implemented new features, resolved bugs, optimized performance, and collaborated closely with clients to understand requirements and deliver solutions, demonstrating versatility and adaptability.

Education

University of the Philippines - Cebu   Cebu, PH
Bachelors of Science in Computer Science   June 2026

Bernardo College   Manila, PH
STEM - Graduated with High Honors   2016 - 2022
